WORK EXPERIENCE

Open Vantage – Software Engineer
Sep, 2019 – Currently

As a Software Engineer at Open Vantage, I have been instrumental in building cutting-edge Web and Mobile Applications using React Native and React. My role extends beyond development, encompassing the integration of JavaScript solutions and the creation of SDKs to enhance our software ecosystem. Additionally, I have actively managed services for clients, ensuring seamless integration and providing valuable technical expertise.

Verge Technologies – Mobile Developer
March, 2019 – Aug, 2019

Developed mobile applications with React Native, contributing to the entire development lifecycle. Collaborated with cross-functional teams, optimized performance, and ensured seamless platform integration. Gained valuable insights into mobile app architecture and solidified skills in React Native.

SKILLS

Skill	Level
Javascript (ES6)	70%
